SECTION A - SUPPLEMENTAL INFORMATION

Amendment 0003 to Solicitation W56HZV-04-R-0260

Item: 116 each of the "A2" Circuit Card for the M1A1 Hull Networks Box; A 100% Option Applies.

NSN 5999-01-343-4203; TDP 12387167 dated 5/8/2003

First Article Testing is required.

The Government WILL NOT FURNISH an M1A1 Hull Networks Box, or an equivalent to it, needed to perform certain tests.

Contractor must design & build his own test fixture equivalent to the M1A1 Hull Networks Box.

The purpose of this Amendment 0003 is to clarify what constitutes an EQUIVALENT TEST FIXTURE to be used in place of the M1A1 Hull Networks Box for the four (4) tests included in Specification # SC-X15145A that require the "A2" Circuit Card to be mounted in the intended application (the M1A1 Hull Networks Box) or mounted in an EQUIVALENT TEST FIXTURE.

The following four (4) tests provide a choice between using the intended application (the M1A1 Hull Networks Box) or an EQUIVALENT test fixture:

- Basic Shock,                      Para. 4.2.3.2 of \_Specification # SC-X15145A.
- Gun Firing Shock,                Para. 4.2.3.3 of \_Specification # SC-X15145A.
- Vibration,                        Para. 4.2.3.4 of \_Specification # SC-X15145A.
- Ballistic Shock,                  Para. 4.2.3.5 of \_Specification # SC-X15145A.

An EQUIVALENT TEST FIXTURE is hereby defined as a housing that need NOT function electronically but needs to be STRUCTURALLY SOUND for use in the preceding shock and vibration tests. Also, the housing must have the proper electrical connections for plugging in the "A2" Circuit Card.

The closing date remains October 5, 2004 @ 1:00 p.m. Eastern Daylight Time.

.
